

G2P
GENOMES TO PEOPLE

**INSIDER
SPOTLIGHT**

CLINICAL In its first 6 months, the [Preventive Genomics Clinic](#) at Brigham has grown to include 5 physicians, 4 genetic counselors and over 100 individuals from across the country requesting appointments.

MEDIA With U.S. Senators [proposing legislation](#) to offer WGS to children with undiagnosed diseases, the topic of sequencing minors is hot right now. Check out this [Nature](#) story that includes findings from the [BabySeq Project](#) and commentary from Dr. Robert Green.

PUBLICATIONS How should we implement precision medicine in clinical care when prescribing medication? Find out in this recent [Clinical and Translational Science](#) publication by Dr. Jason Vassy and his [Genomes2Veterans](#) team.

BLOG Dr. Kurt Christensen shared his thoughts on how to measure the cost effectiveness of genetic testing in the latest [G2P blog](#)!

FRANCA FUND Emily Gold Mears, a G2P adviser, recently hosted an [evening](#) focused on discussion of precision medicine & related themes to support the mission of the [Franca Sozzani Fund for Preventive Genomics](#).

PRESENTATIONS We hope to see you at our presentations this year! Check out a full listing of past and future G2P speaking engagements [here](#).

YEAR IN REVIEW Click [here](#) to see G2P's 2019 highlights and accomplishments, which would not be possible without your support!

Support Our Research!

Please consider making a tax-deductible gift to help accelerate the implementation of genomic medicine and the promise of precision health.

Give today!

Donations support our current research projects in genomics and personalized medicine to predict and prevent conditions like cancer, heart disease and Alzheimer's, in addition to training junior faculty and students.
