

CELEBRATING 5 YEARS OF *the Franca Fund*

2023 marks 5 remarkable years of The Franca Sozzani Fund for Preventive Genomics, uniting genomics and fashion to advance accessible personalized healthcare to all.

Notable highlights include Francesco Carrozzini's \$191,510 donation from his late mother Franca's wardrobe sales, and ZARA's 2021 tribute collection contributing over \$379,000, crucial in advancing our mission for better health.

In 2017, co-founders Francesco Carrozzini, Dr. Robert Green, and D.A. Wallach established The Franca Sozzani Award, recognizing luminaries like Julianne Moore, Salma Hayek, and Iman.

This September, Dr. Robert Green and Francesco Carrozzini were recognized for their incredible efforts at the Fashion4Development (F4D) banquet in NYC, sharing the stage with supermodel Bianca Balti who shared her own powerful story about preventive genomics.

Thanks to the Franca Fund, our Advisory Board, and supporters, the Genomes2People Research Program has thrived, expanding the team, broadening patient outreach, and enhancing student training initiatives.

Cheers to many more years of improving personalized healthcare!
